Daniel is a Chartered Quantity Surveyor and has worked in the construction industry since completing his full time studies in 1996. He has carried out traditional quantity surveying services on behalf of employers, contractors and specialist sub-contractors, and provides assistance with quantity surveying matters in connection with adjudication and arbitration proceedings. Daniel trained and qualified with MCMS and became an Associate Director in 2004. He has been involved in a diverse and high profile range of projects including the Millennium Dome, Somerset House, Blackfriars House Hotel, the Royal Albert Hall, Sunbury BP Amoco, City University Business School, Paternoster Square, the Southfield Project in Hinxton, Cambridge, West 8 Project Regents Street and the Brent Almo project. Daniel was also involved in the Hilton Hotel project in Liverpool where he typically spent two to three days per week based on site or at the client's offices as part of the project team with responsibility for post contract quantity surveying services. He also assists with investigative work in relation to MCMS's dispute resolution services.

#### **Professional Qualifications**

Member of the Royal Institution of Chartered Surveyors

Member of the Chartered Institute of Arbitrators

#### **Academic Qualifications**

CEM Post Graduate Certificate in Adjudication

BSc (Hons) in Quantity Surveying – 2:1 (University of Westminster)

BA (Hons) Media 2:1 (University of Leeds)

Daniel is a keen sportsman and, whilst he is a member of his local gym and enjoys skiing, the majority of his current involvement is as a spectator - in particular following Arsenal football club. Daniel used to be a competitive swimmer, representing his county at junior level, and has competed at the national junior championships.

A more detailed CV is available on request.
